You can access a learning center at `www.adobe.com/creativecloud` or at the Adobe website, where free, community-driven training is available. GIMP 2.8 is a free, cross-platform image editing application that competes with Photoshop in raw performance and features.

However, it does not support multiple layers. Figures 16-3, 16-4, and 16-5 show three different example images: a still life (Figure 16-3), a landscape (Figure 16-4),

and a portrait (Figure 16-5). In each image, two items are displayed in red, while the rest of the image is shown in grayscale. The lettering in Figure 16-3 and Figure 16-4 display the image's filename, while Figure 16-5 displays the image's comment. Notice that this image is simply the original version of the image in grayscale, except the layers are displayed, labeled, and selected in Figure 16-5. Photoshop requires a computer with an Intel CPU, or any computer running Windows 7, 8, or 10. Windows XP and Vista are no longer supported. A virtual machine is not supported on Mac OS X.

Photoshop's interface is somewhat reminiscent of the Windows 95 interface. It works much like a typical Windows program, with the Tools panel at the top, the Layers panel at the bottom, and tools in the middle. Figure 16-6 shows a typical Photoshop Interface. **Figure 16-3:** The elements of this still life image are

displayed in grayscale. **Figure 16-4:** This landscape image is rendered in grayscale. **Figure 16-5:** This portrait image uses the grayscale layer style to show the small portrait against a black background. **Figure 16-6:** The Photoshop interface displays a preview of the image as well as the tools and work area in the editing window. The Tools panel contains various tools for altering the image, including tools for selecting and deleting elements, adjusting the display of the image's layers, and performing various operations to the layers. For example, in Figure 16-6 you can see the Rectangular Selection tool, the Marquee tool, and the Direct Selection tool. The Deselect tool is on the right in Figure 16-6, next to the Brush tool. The Layers panel is at the bottom of the interface

THE GOVERNMENT has been accused of embarrassing this country by locking away men who have served their time, claiming they are too dangerous to be free. Jailed Irish drug addict John Carty, 36, was this week rehoused in a facility for the dangerous-to-society in Woodlands Prison, Tralee, Limerick. Carty, who will serve 15 months on remand, has been jailed for a third time since December 2002 and was due to serve the last of his sentence in October. But the response of the Prison Service is being slammed as "unfair" and "a blight" on the country. In a statement, an unnamed senior Prison Service source said: "What has happened to John Carty is deplorable. This is a blot on the Prison Service and on the country." Carty, a father-of-three, was jailed in 2002 for a 15-month sentence for

drug offences. The former member of the Real Rockers gang had an alcohol and cocaine problem when he was jailed. After he completed his sentence, Carty was released on licence with conditions and was deported to his native Ireland in March 2007. However, he again returned to the country in January this year and is now being held at Woodlands for the third time. When he was released from Ballyhaise jail, where he served the previous two terms, he was arrested at Tralee. He was remanded for two weeks last December and sentenced to six months in Maghaberry prison. He was again remanded in February and was due to be released this month. In an extraordinary move, he was released instead from Tralee Prison because a bed in the the North East Prison Unit in Dundalk was available. On October 15, he was due to be released again and had arranged to be fitted with an electronic

tag. "My family are horrified by this situation," said Carty's father, Willie, himself a former member of the A Team, before a High Court in Tralee on Wednesday. He said his son had been a "good, productive, hard-working citizen" and had only started to turn his life around a year ago. Today, he added, the family had to deal with more pain as he faced "all sorts of additional costs such as those relating to John's tagging". "This is a blot on the Prison Service and on
